How to Use the Solar Charger & Nokia Mobile Phone

Parts of the Solar Charger

Charging the Solar Battery

Put the solar panel outside in the sun.
Face the panel up towards direct sunlight.
Always leave the solar lamp inside.

Insert the long cable attached to the solar panel into the solar charging port.

The LCD window shows battery charging power from 1-5:

- 00:01 = Very slow charging
- 00:02 = Slow charging
- 00:03 = Average charging
- 00:04 = Good charging
- 00:05 = Maximum charging

Using the Solar Lamp

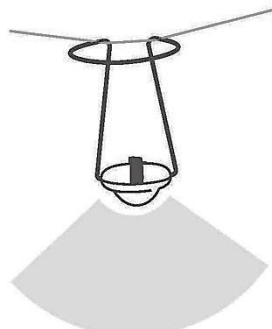

Press the lamp switch once to turn on.

Press the lamp switch again to increase the light level.

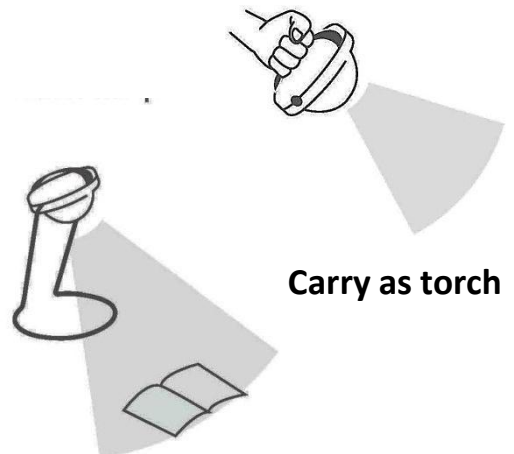

Press again to turn off.

Shows minutes of light

Hang

Carry as torch

Desk lamp

Charging the Phone

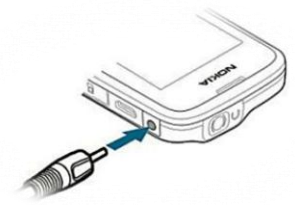

Select the right pin adapter for the phone.

Connect adapter to phone charging cable.

Insert other end of cable into phone charging port on solar charger.

Insert the adapter into phone.

LCD screen will blink 00:00 when the phone is charging.

**Always use the correct adapter for the correct phone.
Never force the adapter into the phone.**
