

Child Health Task Force Members' Pulse Check Survey Results

January 2020

Value Add Statement

- The Child Health Task Force is a global network of implementing organizations; NGOs; academic institutions; UN, multilateral, and bilateral agencies; in-country partners; and individual stakeholders. With our collective expertise, we coordinate with countries to provide comprehensive and strategic technical support to enable the delivery of high-quality child health services.
- We do this by sharing knowledge and innovative solutions to programmatic issues, developing new and improving existing tools, and working at the country-level to translate evidence into stronger child health programs that save lives.

Task Force Goal

- To strengthen equitable and comprehensive child health programs - focused on children aged 0 to 18 in line with Global Strategy for Women's, Children's and Adolescents' Health (2016-2030) - through primary health care, inclusive of community health systems.

Pulse Check Survey

- **June 2019:** Secretariat sent out survey to TF members via Google forms
- **Survey Purpose:** Solicit candid and anonymous feedback on how well the Task Force is working to fulfill its mandate through the ten subgroups.

Child Health Task Force Pulse Check Survey

We are seeking candid and anonymous feedback on how well the Task Force is working to fulfill its mandate through the ten subgroups. Thank you for providing your feedback on this short survey.
