

# NIGERIA COUNTRY PLAN

26<sup>th</sup> July 2019

# POLITICAL WILL

- iCCM should be an extension of the PHC – MoH (iCCM Task Force/Mal-RMNCAH)
  - *Increased advocacy to state government for ownership and prioritization of PHC package of interventions including iCCM– MoH/NPHCDA*
- Supply chain
  - *Government to create budget line to ensure consistent iCCM commodities (procurement, distribution and capacity building) in consideration of the following*
    - Validate Tax on antimalarial and Amox DT - FG
    - Engagement of private sector for distribution – MoH/NPHCDA
      - *External TA needed*
- Investments in Service delivery
  - *Develop investment case for iCCM (mapping and needs assessment) - MoH/NPHCDA*
    - *External TA needed*

# STRATEGIC USE OF INFORMATION

- Operationalize Community HMIS (DHIS2)
  - *Scale up CHMIS*
  
- Use data for planning and decision making at PHC and community levels
  - *Identifying areas of needs (HR, access)*
  - *Prioritization of interventions*
  - *Forecasting and quantification of commodities*
    - **External TA needed**

# BETTER GUIDANCE

- Policy issues

- *Better understanding of CHIPS as a vehicle for delivering Community Health Services including iCCM – MoH/NPHCDA*
- *State government to align with the national EML – MoH (Food and Drug Services)/SMoH*

- Policy dissemination and use

- *Disseminate and promote the use of national guidelines and tools for iCCM at all levels - MoH*

# LEADERSHIP AND COORDINATION

## ■ Community Service Delivery

- *Develop costed operational plan for RMNCH at PHC level – SMOH/SPHCDA and partners*

## ■ Effective coordination and partnership at all levels (national, state and LGA)

- *TWGs/committees should be functional at all levels*
- *Strengthen the capacity of leaders to understand the concept of iCCM at the state and LGA levels*
- *Identify champions at all levels to promote iCCM for reducing child mortality*
- *Regular demand of periodic report with action plans by higher authority (HMH, ED, HCH, ES)*
- *Mapping of partners implementing iCCM – from subnational to national*
  - Where they are
  - What they do
  - Resources
    - *External TA needed*

# RECOMMENDATION TO GLOBAL AND REGIONAL PARTNERS

Work with the country using the HBHI approach in implementing child health interventions

THANK YOU
